

# Activity 03 learner evidence

---

Name: \_\_\_\_\_ Date: \_\_\_\_\_

- ☐ Record SDK version and successful build output.
- ☐ Capture normal, invalid and boundary inputs with actual outputs.
- ☐ Explain the business invariant and controlling method.
- ☐ Record the requirement ID, source file/method and test name.
- ☐ Record a proposed AI change, your review decision and rerun evidence (or manual review).
- ☐ Explain one failure and the repair.

## Design decision

Chosen design and reason: \_\_\_\_\_

Alternative and reason rejected: \_\_\_\_\_

## Test evidence

Input: \_\_\_\_\_ Expected: \_\_\_\_\_ Actual: \_\_\_\_\_

## Requirement trace

Requirement: \_\_\_\_\_ Method: \_\_\_\_\_ Test: \_\_\_\_\_

## Handover

Known limitation and next change: \_\_\_\_\_
